**BUSHSPORTS –
 TeamBUILD,
 TeamTOWER,
 TeamARK**

**SUCCESSFUL STRATEGIES OF
 BUILDING COOPERATIVELY
 WHILST TEAMS UNITE!**

Objective: Build a 3 dimensional structure achieving the greatest height or theme as is possible. Utilising the assets and materials purchased or gained through the whole teams participation; Leadership, Motivation, Skill, Tenacity, Communication, Problem Solving and Sheer Talent!

Its as easy as 1-2-3 with Bushsports professional staffing and experience in delivering large scale quality team events.

Points or currency are awarded for success and performance. These are then traded for assets and materials to create the TeamBUILD. Construction materials include – Props, PVC piping & push fit connectors, Cable Ties, Ducting Tape!

Activity stations – Surround a central construction site where the tower will be constructed. (activities are designed to complement your theme, vision or mission the number of activities will vary according to group size and duration required).

SAMPLE SELECTION

1. **Poles Apart** – Team members sign their name on sheet laid in a toxic zone without stepping into the area.
 2. **Water Jet Blasting** – Retrieve water then fire jet blasters to shoot water accurately into canisters.
 3. **Mojo** – Fun team linking – jumping through hoops literally without breaking links.
 4. **Mine-field** – Clear the thermonuclear detonating devices scattered in the mine-field aboard specially designed planks.
 5. **Nuclear Hazard** – A leaking nuclear waste drum has been encountered which requires decanting into a safety container utilising only ropes, whilst keeping clear of the nuclear leakage zone.
 6. **Sculpting** – Clay or Sand into a creative work linked to the mission at hand.
 7. **Puzzled** – Unravel puzzle boards into shapes, colour coordinates and words to succeed.
- (Alternative activities: Spiders Web, Electric Fence, Rettel, Search-Retrieve, Hand Cuffs)

Each team is provided up to 15-30 minutes to complete the tasks surrounding the construction zone, then rotates to next activity. Once activities are completed all team members support the final construction managed by the designers.

Teams elect one construction designer and one builder (identified by construction helmets) to enter the central construction site and work cooperatively with other teams. Building a unique SCULPTURE, SYMBOL, ARK or a secure and stable TOWER structure with the materials gained by their total team's efforts.

Once finished, a device is triggered signalling completion. The tower embodies the spirit of achievement and is a symbol of united team achievement. Team scores will be highlighted on the whiteboard, prizes presented for accomplishment and speeches of acceptance given!!!!!!

- Provided:** * All equipment * Colour coordinated team Bandanas * \$10 million Public Liability Insurance * Key Coordinator / Host * Motivational Qualified, experienced staff and facilitators.
- Locations:** Bushsports TeamBUILD is adapted to suit any location.
- Customised:** To suit: group size, timing, location, facilities, logistics, options and content selected.

SIEMENS Medical captured in action. All teams united in Building an ARK. Subsequently launched and successfully paddled by the management team to the resounding applause and astonishment of all at The newest Outrigger Resort Ettalong.

160 Coffey Geosciences Delegates revelled in the fun, action, challenges, creativity and Building of a unique symbolic structure. The initial design by the first group of engineers was gradually modified by a series of Chinese whispers.

Until the final construction team embodied all the elements into 1 structure of strength. Raising the Coffey logo proudly atop of the initial platform.

REFERENCES

"A brilliant afternoon of team focussed activities, creating an ARK that united the Siemens team at The Outrigger Resort". Siemens Medical – Nov 2005

"Sensational fun in building and linking new business teams Coffey where the common goal was to acquire building equipment. Literally structuring the team in succeeding cooperatively where our Chevron Symbol was recreated with passion". Rodger Olds, CEO Coffey Geotechnical Nov 2005

"A whopping big thanks for an outstanding day...I've never had so much fun before.. we still can't stop praising the day and your efforts thanks again. Debra D'Amato, Patrick International Freight

"One of the best teambuilding days FMK had participated in, other companies have 1 or 2 activities that are good, however Bushsports program was consistent in delivering activities that keep you interested from beginning to end." Jason Croft - FMK Director.
