Blue Mountains - Three Sisters - Echo Point - Katoomba Team Treasure Trail

Story - Millions of people search for elusive treasures, which can be discovered in Australia's famous 14th World Heritage Listed environment, The Blue Mountains! *Myles Dunphy* and his son Milo who were instrumental in preserving the wilderness in Australia. He developed a special Blue Mountains map with unique markings identifying significant locations. Information appeared cryptic and we could make no sense of the rhymes, riddles and key information required to identify and locate a hidden Blue Mountains Treasure. BUSHSPORTS urgently requires your teams expertise to unravel clues, search, locate & unlock treasure!

Participants are briefed by a Bushsports events coordinator – providing resources, Blue Mountains treasure hunt maps, clue sheets, compasses and scavenger hunt lists. Teams then journey from Blue Mountains Resorts or at Echo Point on an exciting team quest. Challenging resourcefulness, problem solving, navigational skills, communication and team coordination. At times team activities and corporate challenges.

Teams compete or cooperate in fun activities and initiatives, employing team strategies whilst experiencing and enjoying the Blue Mountains fresh air.

Along the trail will be special information to be discovered until all teams ultimately reunite to discover true Blue Mountains treasure in an excellent finale and presentation.

Allow us to create a special Blue Mountains Team Building activity as part of your conference event. More memorable by adding special prizes, transport, tours, scenic skyway, murder mysteries and adventure activities!

Blue Mountains Team Building Extension activities: Scenic Railway, Scenic Skyway, Abseiling, Mountain Biking, Cycling, Orienteering, Search n Rescue or Blue Mountains Adventure Activities.
